GUIDE TO EASY
OPERATION

Uses

- Outside Plant, Electrical Panels and Conduit
- Data Network (Industrial), Cables/Wires
- Manufacturing, MRO, Safety
- Harsh Environments

Built-in Software Features

- Block label formatting makes multiple data input for patch panels quick and simple - even prints any block as a single label and automatically formatted for cables and faceplates
- Sequential alphanumeric numbering for serialized labels or for a continuous label with definable spacing (patch panels and racks)
- Prints up to 7 lines of standard characters or 21 rotated characters on 1" wide tape
- Auto sizes, or choose from 8 sizes and 4 character widths
- Program each line with a different font size and style on the same label

Light weight and portable, the new K-Sun LABELlab® 1640Ki will make durable laminated labels whenever or wherever you need to go. Industrial orange color and rubber impact guards makes this model ideal for outside plant, manufacturing, electrical or any other harsh working environment. A new efficient label cutter is programmable to your working style, saving you money by using only the amount of tape you need. Built-in intelligence detects tape cassettes and automatically formats the label, making the operation reliable and truly easy to use. The LABELlab® 1640Ki comes with industrial label templates and a library of industrial symbols allowing you to quickly print a wide assortment of labels on the spot eliminating the need to stock and carry around costly preprinted labels.

The K-Sun LABELlab® 1640Ki uses any LABELlab® tape cartridge up to 1" wide and is available in your choice of adhesives (Standard, Extra Strength, Tamper-Evident, and Flexible ID - for wire wrapping and flagging) and colors to meet your specific labeling needs.

General Features

- Industrial orange color, rubber impact guards and deluxe carrying case for use in any indoor or outdoor labeling application
- Input data once and prints any kind of label for all horizontal link components
- Programmable label cutting system saves time and money
- Get started quickly using preprogrammed label templates

Hardware Features

- High quality printing up to 60 point size on 1" tape
- 15 characters x 2 lines LCD display
- ABCD keyboard with number pad
- Prints standard, rotated and mirrored text and numbers
- Intelligent thumb actuated manual cutter

Special Industrial Features

- Label length and margin settings
- 7 sizes of text plus auto size
- Inches or millimeters
- 14 special borders
- Text alignment left, center, right, or justify
- Prints vertical or rotated text for cable or wire wrap
- Prints horizontal text for wire, cable flagging
- UL 969 recognized tape supplies
- Telecom/datacom templates and symbols
- 9 industry standard bar code symbologies
- Library of over 90 industrial symbols
- Store and quickly recall up to 10 label designs

Uses the widest variety of label media

- All K-Sun LABEL*lab*® tape cassettes
- NEW INDUSTRIAL TAPES with up to 2X the adhesive strength of standard tape cassettes

K-SUN LABEL*lab*® NEW INDUSTRIAL LAMINATED TAPES

Twice the adhesive strength of standard tapes

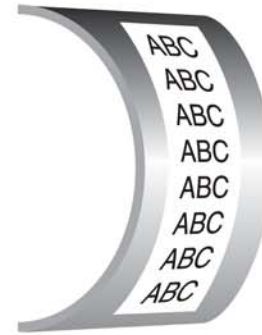

Industrial Laminated Tapes Do the job right the first time. Made with an industrial adhesive that is twice as strong as our standard adhesive, industrial tape is designed to stick to difficult surfaces that exceed the performance of other brand labels. Industrial tapes are also laminated to protect against abrasion, extreme temperatures, chemical exposures and fading.
