

Tubing Identification Done Right!

Unitag® Tube ID is a plastic snap-on labeling system that provides an easy way to identify tubing. Ability to read from any angle frees nurses and doctors hands when a line needs to be identified quickly.

- ✓ Quick & Easy Application
- ✓ Clearly Identifies Tubing
- ✓ No Crimping of Lines
- ✓ Interchangeable & Reusable
- ✓ Rotating Marking Surface
- ✓ 5/8" Wide by up to 2 1/2" Long
- ✓ Available in Orange, Yellow, White & Blue
- ✓ Prevents Line & Content Confusion

Unitag® Tube ID	100 pack	\$ 19
	1000 pack	\$140

Tapelessly Secure Intravenous Tubing!

Our WrapLite® is a tapeless alternative for securing IV lines, preventing accidental catheter removal by active patients such as children. Also does not cause irritation.

- ✓ Secures Lines Quickly
- ✓ Affordable for Single Patient Use
- ✓ Easily Adjusted After Application
- ✓ Prevents Skin Irritation from Repeated or Excessive Tape Application
- ✓ Effective for Diaphoretic Patients
- ✓ Variety of Sizes Available in Assorted Colors
- ✓ Also Secures Tubing to Equipment or Beds
